Fund Objective

1. Empowering Learning

Help us understand how your work is empowering young people who may otherwise be at risk of early school leaving or low education attainment to access supportive interventions that will empower and equip them to successfully transition into skills based opportunities, mentorship opportunities, further learning opportunities and employment opportunities.

Help us understand how your work is empowering young people to address the theme of sustainability in their lives. We are looking to support projects and programmes that are focused on education, action and awareness building around areas including, but not limited to, bio-diversity, circularity of economy and packaging, sustainable diets and food waste.

3. Empowering Inclusion

Help us understand how your work is empowering young people to engage in models of innovative social practise and bringing people together. We want to support projects and programmes that are focused on breaking down barriers and building friendships.
